

Elizaveta Gorda

Frontend-developer

Hello! My name is Elizaveta

I am a Frontend Developer with a strong enthusiasm for creating visually appealing and functional websites. I thrive on learning new technologies and techniques, constantly seeking to enhance my skills and stay updated with industry trends. My dedication to delivering high-quality user experiences drives my work, as I aim to combine aesthetics with functionality in every project.

[JavaScript\(jQuery\)](#) [Grunt](#) [LESS](#)

Work Experience

- Website layout

Creation of adaptive landing pages: developed and designed several landing pages for various clients, ensuring high loading speed and cross-browser compatibility. Technologies used: HTML, CSS (including LESS and SASS), JavaScript (jQuery), responsive design. Performance Optimization: Implemented image and code optimization to improve user experience and boost SEO.

Higher Education

- Belarusian State University

Mathematics and Computer Science (Web Programming and Internet Technologies)

Sep 2023 - Jun 2027

Additional Education

In 2021, I took layout courses at the MYFREEDOM IT school, where I received two diplomas confirming my skills in creating responsive and cross-browser websites. Later, I deepened my knowledge by taking front-end developer courses at the ITlogia online school. These training programs helped me master modern web technologies and improve the quality of my work.
